State of Kansas Department of Health and Environment

Public Notice Concerning Kansas / Federal Water Pollution Control Permits and Applications

State of Kansas Public Notice No. KS-AG-17-266/270

Department of Health and Environment KS-Q-17-164/167
Division of Environment-Bureau of Water KS-NQ-17-020/021
1000 SW Jackson St., Suite 420 KS-PT-17-018

Topeka, Kansas 66612-1367

Telephone: (785) 296-6432 - Ag Permits Beginning Date: November 16, 2017

(785) 296-5517 - All Others Comments Due: December 16, 2017

In accordance with Kansas Administrative Regulations 28-16-57 through 63, 28-18-1 through 17, 28-18a-1 through 33, 28-16-150 through 154, 28-46-7, and the authority vested with the State by the administrator of the U.S. Environmental Protection Agency, various draft water pollution control documents (permits, notices to revoke and reissue, notices to terminate) have been prepared and/or permit applications have been received for discharges to waters of the United States and the state of Kansas for the class of discharges described below.

The proposed actions concerning the draft documents are based on staff review, applying the appropriate standards, regulations, and effluent limitations of the state of Kansas and the Environmental Protection Agency. The final action will result in a Federal National Pollutant Discharge Elimination System Authorization and/or a Kansas Water Pollution Control permit being issued, subject to certain conditions, revocation, and reissuance of the designated permit or termination of the designated permit.

Public Notice No. KS-AG-17-266

Application(s) for New or Expansion of Existing Swine Facilities

Name and Address of Applicant

Owner of Property Where Facility Will Be Located

Janet Sell, Managing Member Old Stone Pork, LLC 1304 W. Fox Road 126 West 900 Road Long Island, KS 67647 Long Island, KS 67647

Legal Description Receiving Water

NW/4 of Section 08 Upper Republican River Basin

T01S, R19W Phillips County

Kansas Permit No.: A-URPL-H012 Federal Permit No.: KS0101265

This is notification KDHE has received a complete permit application for the operation of a swine waste management facility capable of housing 24,000 head (9,600 animal units) of swine weighing more than 55 pounds each. The complete application can be viewed at the office of the Phillips County Clerk, the KDHE District Office in Hays, Kansas or the KDHE Main Office in Topeka, KS. A permit to operate the proposed swine waste management system will not be issued without additional public notice.

Public Notice No. KS-AG-17-267/270

Pending Permits for Confined Feeding Facilities

Name And Address of Applicant

Legal Description
SW/4 of Section 21 &
NW/4 of Section 28

Lower Arkansas River Basin

Receiving Water

Nelson Circles, Inc. 1566 210th Avenue Lewis, KS 67552

Bo Nelson

T26S, R17W Edwards County

Kansas Permit No.: A-ARED-C002 Federal Permit No.: KS0088251

This permit is being re-issued for a confined animal feeding operation for 5,500 head (5,500 animal units) of cattle weighing greater than 700 pounds. This represents an increase in the permitted animal units from the previous permit. Proposed facility modifications are construction of additional pens to the north and east of the existing facility with a new wastewater collection channel and sediment basin that drain to the existing wastewater retention structure. This facility has an approved Nutrient Management Plan on file with KDHE.

Rawhide Limited Partnership Steven Krispense - Trustee K-K Ranch 1641 E. 230th Street Marion, KS 66861 NW/4 of Section 15 T19S, R03E Marion County Neosho River Basin

Kansas Permit No.: A-NEMN-B030

This is a renewal permit for an existing facility for 150 head (150 animal units) of cattle weighing greater than 700 pounds and 425 head (212.5 animal units) of cattle weighing 700 pounds or less. Approximately 6.5 acres of open lot pens are controlled by grass buffers. There is no change in permitted animal units. The improvement plan for the west area includes a terrace to exclude extraneous drainage.

Fairview Farm, Inc. 12763 Fairview Road Harveyville, KS 66431 NW/4 of Section 5 & NE/4 of Section 6 T15S, R13E Wabaunsee County Marais des Cygnes River Basin

Kansas Permit No.: A-MCWB-S001

This permit is being reissued for an existing facility with a maximum capacity of 1,085 head (434 animal units) of swine more than 55 pounds and 620 head (62 animal units) of swine 55 pounds or less, for a total of 496 animal units. There is no change in the permitted animal units from the previous permit cycle.

Doug Gerleve 2264 22nd Road Washington, KS 66968 N/2 of Section 15 T02S, R04E Washington County Big Blue River Basin

Kansas Permit No.: A-BBWS-S028

This permit is being reissued for an existing facility with a maximum capacity of 950 head (380 animal units) of swine more than 55 pounds and 600 head (60 animal units) of swine 55 pounds or less, for a total of 1,550 head (440 animal units) of swine. There is no change in the permitted animal units from the previous permit cycle.

Public Notice No.: KS-Q-17-164/168

The requirements of the draft permit public noticed below are pursuant to the Kansas Surface

Water Quality Standards, K.A.R. 28-16-28 (b-g), and Federal Surface Water Criteria.

Caney, City of **Treated Domestic** PO Box 129 Wastewater'

Canev, KS 67333

Kansas Permit No. M-VE04-OO01

Federal Permit No. KS0027481

Legal Description: S½, SE¼, SE¼, S11, T35S, R13E, Montgomery County, Kansas

The proposed action is to reissue an existing State/NPDES permit for an existing facility. The existing facility is a mechanical treatment plant consisting of a bar screen, parshall flume, oxidation ditch, two final settling tanks, UV disinfection, dewatering (bagging system) of sludge and sludge drying beds. The proposed permit contains limits for biochemical oxygen demand, total suspended solids, ammonia, E. coli, and pH, as well as monitoring for total phosphorus, nitrate + nitrite, total Kjeldahl nitrogen, total nitrogen and flow.

Mulberry Creek via Unnamed Tributary **Treated Domestic** Wastewater

Kansas Permit No. M-SA20-OO01

Federal Permit No. KS0094161 Legal Description: SE14, SW14, SW14, S28, T13S, R4W, Saline County, Kansas

Facility Name: Sundowner West Meadows Wastewater Treatment Facility

Facility Location: 2745 N. Hedville Road, Salina, KS 67401

The proposed action is to reissue an existing State/NPDES permit for an existing facility. The existing facility is a three cell wastewater stabilization lagoon system. This is a modification to include a schedule of compliance stating that within 30 days of the effective date of the permit, the permittee shall have a KDHE certified wastewater treatment operator to oversee the operation of this facility. The proposed permit contains limits for biochemical oxygen demand and total suspended solids, as well as monitoring for pH, ammonia, E. coli, total phosphorus, and copper.

Arkansas River

Process Wastewater

Federal Permit No. KS0100382

Facility Name: Arkansas City Mine

Facility Location: NW1/4, S22, T34S, R5E, Cowley County, Kansas

The proposed action consists of issuing a new pretreatment permit for an existing facility. This is a limestone quarry operation with no washing. Outfall 001 and 002 consists of stormwater runoff. The proposed permit contains generic language to protect waters of the state.

Public Wholesale Supply District #23

Fall River via Salt Creek **Process Wastewater**

PO Box 328 Fredonia, KS 66736

Kansas Permit No. I-VE18-PO05

Federal Permit No. KS0101192

Facility Location: 7436 1000 Rd., Fredonia, KS 66736

The proposed action is to issue a new permit for a new water treatment plant. Raw water will be treated using pre-sedimentation basins, circular clarifiers, solids contact clarifiers, gravity sand filters and a chlorine contact basin. Chlorine will be used for primary disinfection before the water is sent to the clear well. Sludge from the pre-sedimentation basins, lime softening wastes from clarifiers, filter to waste, filter backwash and floor drains from the HSP building will be pumped to a two cell lagoon system for treatment. Outfall 001A1 consists of the discharge from either of the two lagoons. The proposed permit contains limits for total residual chlorine and total suspended solids, as well as monitoring for pH.

Public Notice No. KS-NQ-17-020/021

Coolidge, City of

Kansas Permit No. M-UA08-NO01 Federal Permit No. KSJ000273

Facility Name: Coolidge Municipal Wastewater Treatment Facility

This action consists of reissuing an existing Kansas Water Pollution Control Permit for an existing non-overflowing facility. The facility consists of a two cell wastewater stabilization lagoon system. The proposed permit contains a schedule of compliance stating that by April 1, 2018, the permittee shall hire a Kansas licensed engineering consultant to provide an operations and wastewater treatment lagoon evaluation, including a full pond seepage test. The schedule of compliance also states that by October 1, 2018, the permittee shall provide KDHE an engineering report and proposed schedule for improvements to bring this facility into consistent compliance with the requirements of this permit and K.A.R. 28-16-160 et seq. The engineering report and proposed schedule are subject to approval by KDHE and are enforceable under this permit.

RECEIVING FACILITY
Kipp MWWTP

TYPE OF DISCHARGE

Great Plains Manufacturing, Inc.

1525 E. North Street Salina, KS 67402-5060 p MWWTP Process Wastewater

Kansas Permit No. P-SH46-OO01

Federal Permit No. KSP000099

Facility Name: Great Plains Manufacturing, Inc. - Kipp Facility

Facility Location: 244 North Hugh, Kipp, Kansas 67401

The proposed action consists of issuing a new pretreatment permit for an existing facility. This facility manufactures various types of farm tillage equipment such as dirt blades, rakes and disc harrows. Steel parts are welded, phosphated and painted to produce the final products. Regulated wastes consist of wastewater from a conversion coating (phosphating) operation, which is a pressure spray gun system in a wash booth. Spent phosphating wastes from this system is collected in a sump pit and pumped to one of the three tanks in the treatment system. Outfall 001 is the point where treated effluent from the treatment system is discharged to the city sewer, which is also the designated sampling location. The proposed permit contains limits for pH, total toxic organics (TTO), cadmium, chromium, copper, lead, nickel, silver, zinc and total cyanide.

Persons wishing to comment on or object to the draft documents and/or permit applications must submit their comments in writing to the Kansas Department of Health and Environment if they wish to have the comments or objections considered in the decision making process. Comments or objections should be submitted to the attention of Livestock Waste Management Section for agricultural related draft documents or applications, or to the permit clerk for all other permits, at the Kansas Department of Health and Environment, Division of Environment, Bureau of Water, 1000 SW Jackson St., Suite 420, Topeka, Kansas 66612-1367.

All comments regarding the draft documents or application notices received on or before <u>December 16</u>, <u>2017</u>, will be considered in the formulation of final determinations regarding this public notice. Please refer to the appropriate Kansas document number (KS-AG-17-266/270, KS-Q-17-164/167, KS-NQ-17-020/021, KS-PT-17-018) and name of the applicant/permittee when preparing comments.

After review of any comments received during the public notice period, the Secretary of Health and Environment will issue a determination regarding final agency action on each draft document/application. If response to any draft document/application indicates significant public interest, a public hearing may be held in conformance with K.A.R. 28-16-61 (28-46-21 for UIC).

All draft documents / application and the supporting information including any comments received are on file and may be inspected at the offices of the Kansas Department of Health and Environment, Bureau of Water, 1000 SW Jackson St., Suite 420, Topeka, Kansas. These documents are available upon request at the copying cost assessed by KDHE. Application information and components of plans and specifications for all new and expanding swine facilities are available on the Internet at http://www.kdheks.gov/feedlots. Division of Environment offices are open from 8 a.m. to 5 p.m., Monday through Friday, excluding holidays.
